Exercise Sheet 9
complete until Monday, January 9th, 2006

Exercise:
- Think of an idea for a small research project and write one or two paragraphs about it to the Wiki. It can be anything related to the theme of this seminar. See the Wiki for a list of example projects and what kinds of projects are reasonable. Pick something which you really like! In the new year we will discuss these ideas with you and then one of the next exercises will be to write a short research proposal where you make your goals and plans more precise.

Have a very nice holiday!

We wish you a Merry Christmas and a Happy New Year!
